

Pig Proof

Tsu Surf

Rappin' what we live through
100 on your gang, you feed your wolves, you make 'em pig proof
Prostration darker than his heart, that's what a bid do
Opps be out here, gotta watch my body, watch my friends too
They say they outside, they wasn't present when we slid through
Heard the devil lurkin', we outside, my demons sin too
[?] double lock the trap, gotta make it kid proof
100 on your gang, you feed your wolves, you make 'em pig proof
100 on your gang, you feed your wolves

You pull up back to back, we gon' pull up back to back
We don't do no drive-by's or respect no tattle tats
They say they gon' kill me when they see me, nigga laugh at that
I ain't bought this chopper for no picture, bitch gon' ra-ta-tat
I pray to God they never catch me slippin'
My body different
We trap my momma kitchen
If they trip they won't find them bitches
Youngins do the hammer dance
I've been busy bandin' bands
How the hell his momma make the scene before the ambulance?
30 clip they all in there
We hit two then call it fair
Spin 'em like a barber chair
Don't be rude, just Cartier
Burnt the bridge, it's fallin' down
He can't run track, hawk him down
Once you hear the car you start the car and go walk him down
I don't love a bitch
She turnt to fuck me with her sis'
If he don't shoot then he'll drive and we still credit that assist
They had me when they caught me
I just woke up from a orgy
Bought my young lil' bitch a dog, "Ayy, put this 40 by your Yorkie!"
We came from nothin', made a bag
We outside with no regrets, just hammers playin' laser tag
Any lick we hit it's gang gang and split straight in half
Came through and missed the whole block
Man, they just made us mad
My smoker be cookin' too, his kitchen
