Respect how I'm boming, we come from nothing
Seen neglection as youngins
Why the stretch my Lil bruh in the function, we still geeking
Bought a bag, gotta feed the circumference, that's on Jesus
When mines ain't never ask me for nothing, that nigga eating
Detective made arrests in my section, but we was speechless
Leave me lone about a put on partner, sound like you leaching
Real even, one of them niggas that bleed cement
I cried so many times from niggas playing defense
Sucker almost got me today, I felt I didn't need it
You know we doubled back and succeeded with a pair of cleavage
On his way to college, niggas clipped 'em for no reason
And my brother and nem been switching like the seasons, can't believe it
Trenches finally got the recognition we needed
But it's very few that overlook the floor within the demons
Have mercy, instead of putting me on, you tried to work me
Would've never thought that you would that thirsty
Niggas smerky

Aye, ain't no doubt about it dawgy, we gone die about
Fore I let you niggas play with one of mine
We gone go to war about it, up the score bout it
Throw up fourth, shawty knowing what that symbolizes
Aye, ain't no doubt about it dawgy, we gone die about
Fore I let you niggas play with one of mine
We gone go to war about it, up the score bout it
Throw up fourth, shawty knowing what that symbolizes

Dirty hands in them trenches, I really did the dirty
Ambulance coming and the reaper, who gone get 'em first?
Lil homie died, that's the last time I been to church
Make it rain, how we handle pain, I still hurt
They lurking, gotta drill first
I love 'em then I bled for 'em
How you screaming game? Loyalty ain't what you stand for
Put in work for Cuz then Cuz went and told the stand on 'em
Never gave us nothing, made the best of it
These choppers from the Mexicans
Mama know I got it when I'm leaving
It's vicious so I need it
And shine through the dimmest light
Pray before we sin tonight
Phone call from Cuz in good light, he got sentenced in light
Appeal pending, he said it's y'all law
At least a body on your back or you can't get in this car
Opps got a nigga lacking, gotta live with the scars
Product of my environment to live in this heart

Aye, ain't no doubt about it dawgy, we gone die about
Fore I let you niggas play with one of mine
We gone go to war about it, up the score bout it
Throw up fourth, shawty knowing what that symbolizes
Aye, ain't no doubt about it dawgy, we gone die about
Fore I let you niggas play with one of mine
We gone go to war about it, up the score bout it
Throw up fourth, shawty knowing what that symbolizes
