

# Take Control

Tsu Surf

You can push my head into the pillow  
Give it to me fast or you can do it slow  
I want you to take control  
Baby, you can take control  
We can make love 'til the song ends  
And if you want some more we can do anythin'  
I want you to take control  
Baby, you can take control, ooh yeah

We in that bed goin' dumb again  
Lights off, door locked, ain't nobody comin' in  
Chillin' how it started off, fuckin' is the way it go  
Neighbors know my name, Trey Songz on that radio  
But it get better than the last time  
Plus I bought them condoms, girl, you know it's that Mag kind  
Pussy game fabolous, that throw it in the bag kind  
I go where them niggas can't, she hollerin', that ass mine  
And you already know what's up  
It's goin' down, we wrestlin', I got her in that cobra clutch  
And I can make that soda pop, shakin' till that soda bust  
Backshots, she throw it back, when I'm on top she throw it up  
Take control like the Wii stick, small waist, cheek thick  
Deep dick, arched back, fat cat; Heathcliff  
And I know what them ladies like  
I go deep, Navy type, it's wetter than a baby wipe

You can push my head into the pillow  
Give it to me fast or you can do it slow  
I want you to take control  
Baby, you can take control  
We can make love 'til the song ends  
And if you want some more we can do anythin'  
I want you to take control  
Baby, you can take control, ooh yeah

So if you down, call me up, we'll get it in before you out  
And if you scratch then I'ma bite, I'll turn that whisper to a shout  
See them men ain't what you want  
Tsunami more like what you need  
Eyes closed, legs open, you will cum before you leave  
I make her Twitter when I hit her  
Hit her liver, she gon' shiver  
Kitty purr when I kiss it, couple strokes when I dig her  
Twinkled eyes, pussy wet, I read them signs like I'm a pitcher  
Fat twat, backshots, I'm in that frame like a picture  
Gotta wrap like a doobie, yeah bend that ass up  
If you flexable I'll press to you, I'll bend that ass up  
Come and let me take your coat  
I handle waves like I'm a boat  
And them holes so close see I just gotta lick 'em both  
I take control when we get it in, [?] send 'em in  
Eyes closed, bite her lips, she cummin' when I'm enterin'  
Callin' me a boy toy, she feel like a kid again  
Money make her come, that's why I'm all about my Benjamins

You can push my head into the pillow  
Give it to me fast or you can do it slow

I want you to take control  
Baby, you can take control  
We can make love 'til the song ends  
And if you want some more we can do anythin'  
I want you to take control  
Baby, you can take control, ooh yeah
