Tsu Surf

Humbeats

I really be feelin' unbothered

That's where I go crazy at?

Cool

Heard he get to lurkin' if you push him

We been cookie cushin', innocence get taken

Hoodie low, just pray they never overlook him

All my shooters good at shootin', word to Brooklyn

Only loyal when you lookin'

[?] the lord, they gave him 30 turned to muslim

Where it happen at?

Smack in the middle, wasn't no battlerap

You really want them pull up in they habitat

Huntin' night, feel your stomach tight

When it ain't somethin' right, a summer night

If they ain't got no mask mean they want your life

Hearin' shit, me vs bear I think that bear a bitch

Rule one, stamp the shit

He gotta stay here if he ain't airin' shit

Still get a badge, every team role serious

Vanguard, he watch the whip with no warzone experience

It's cold out, he was tryna chill ain't have his pole out

Thankful for that self revive 'cause he ain't have his loadout

If they ever catch us, is you kiddin'? Take the grown route

We gon' mix patience with paid lawyers and closed mouths

Adiós, you know opps opps, it be who plottin' close

He don't fuck with niggas, it was family if they shot him close

Whole plug makin' sure this day I'm eatin' platinós

Practicin' my Spanish, I learned de nada and vaminos

Lotta work, met a baddie bottom coat droppin' work

She cook empanadas and she chop the coke

All that ass, can't tell she poppin' percs, watch her squirt

Aggressive and think condoms gross

Boyfriend halfway out the halfway house, that mean I gotta go

They want a thousand out the box

1800 for the chops, business good, three 30's on the Glock

Doorman downstairs from the spot

Only let in bitches, gang and no cops

If it's war we ain't warnin' shit

You wasn't or you born for this

Screamin' street sign will get that corner hit

Broad daylight gory shit

Whip 223's, Michael Jordan shit

Vito 'cause that bitch jumpin' out first, she look glorious

Clowns, any verb that's with violence we was down

Right person, place and thing I do it now

Neighbourhood bastard, Arlington tell the cab drive faster

We be head on lookin' for disasters

Tell them niggas act right

Fund the bando to keep the trap right

Feds get his phone, next question gon' be "Who Smack White?"

All them transactions smack white, naw not that white

Hard metal chairs and handcuffs will have your back tight

Suckas, I think I could get 40 at the Rucker

Let his bitch wear my cuban while I fuck her

Don't be trustin' bitches, that's just me quotin' my mother

My tsu ain't been young since Soo-Yung met Chris Tucker
