

Arrive

Tub Ring

Please, get the lights on your way out the door
Please, get the lights on your way out

I got the cash
But I still got hell to pay
I got the will
But the will won't find a way

I got a plan
I got new destiny
I got a ride
Let's go places that we shouldn't be

The last one that's in
The first one out

It feels good
So good to arrive
Yeah
Relocate
It's good to arrive

It feels good
So good to arrive
Yeah
Damn straight
It's so good to arrive

I got an itch
I just figured out a way to scratch
I got it all
But I still think that there's a catch

I got the means
I got an opportunity
I got a shot
Won't you come and take and trip with me

The last one that's in
The first one out

Heed forward motion
I gotta see
I gotta see
I gotta see
I gotta see
I gotta see
Vast as the oceans
I gotta see
I gotta see
I gotta see
I gotta see
I gotta see

I got the cash
But I still got hell to pay
Time is up

The devil wants his due
I got the will
But the will won't find a way
Where there's a will
There's not always a way

I got a plan
I got new destiny
Get up
Get up
Pick up the pieces
I got a ride
Let's go places that we shouldn't be

The last one that's in
The first one out

It feels good
So good to arrive
Yeah
Relocate
It's good to arrive

It feels good
So good to arrive
Yeah
Damn straight
It's so good to arrive

Please, get the lights on your way out the door
Please, get the lights on your way out
