

# Breakdancing My Way Back Into Your Heart

Tub Ring

You and me  
We had it special, once  
'Til you left me  
For another man

But since that day  
I've been plotting  
To get you back  
Anyway I can

Get you back  
Anyway I can

Tried phoning  
You didn't answer  
I started rumors  
Your man was gay

No Lack of trying  
These things didn't work  
Now I got the perfect way

Now I've got the perfect way

Now I'm hip hoppin', no stoppin'  
Rockin' out to a different groove  
Back spinnin', show winnin'  
The funky ways that I can move

Damn, I'm gonna show you my plan  
'Cause when I get down  
And with my arms around

Damn, I'm the principle man  
And if I know you don't know  
I'll put on my show  
Just for you

I'll show you what I can do  
I can spin on my head  
Or my back instead  
On my back instead

I've been practicing my caterpillar  
With the best of them  
Worked hard, but it was worth it  
The time is now, I know I can

Time is now, I know I can

Breakdancing my way  
Back into your heart  
I don't have much to say  
But I know it's a start

I'm breakdancing my way  
Back into your heart

And you'll come back to say  
We'll never be apart

You house is close  
I can moonwalk the distance  
'Cause I now I got  
The magic feets

Don't need much room  
Just clear a little space  
So I can lie down  
My cardboard sheets

I lay down my cardboard sheets

Now I show class, my ass  
No need to prove that I can dance  
I got style and I'm wild  
I've also got the parachute pants

Damn, I'm gonna show you my plan  
'Cause when I get down  
And with my arms around

Damn, I'm the principle man  
And if I know you don't know  
I'll put on my show  
Just for you

I'll show you what I can do  
I can spin on my head  
Or my back instead  
On my back instead

Seen all the funky movies  
Beat Street and Breakin' Two  
Not enough to see the sequels  
I just watch Electric Boogaloo

I just watch Electric Boogaloo

Breakdancing my way  
Back into your heart  
I don't have much to say  
But I know it's a start

I'm breakdancing my way  
Back into your heart  
And you'll come back to say  
We'll never be apart
