

O.C.D.

Tub Ring

And I think I left the lights on
So I'll check them again
I've done it seven times
But I'll check them again

And I'm wiping down my ashtrays
Even though I don't smoke
And I think I left the lights on
So I'll check them again

It's just a little thing I do
O.C.D.
And I think that I'm obsessive
And I should really get help, help

So many different ways
To catch a disease
So I avoid the germs
Looking for me

Convince myself that I'm
The only one sane
Even when I know
I have nothing to gain

And I'll reinforce my basement
'Cause I think it's caving in
And I have twenty five support beams
'Cause it might be caving in

And my furniture too heavy
To put on the second floor
So I'll check my reinforcement
'Cause it might be caving in

And I know that I'm compulsive
And I should really seek help, help
