

Reevaluation

Tub Ring

Way below the surface
Ascending to the light
Made a couple errors
But I think that it's alright
Speak of my return
No, it shouldn't bother them
I know I've already
Told you who I am

Make your peace
A reevaluation's what I need
Sow your seeds
A reevaluation's what I really need

And wherever I go
Is wherever you go
And wherever you go
(And wherever you go)
Is wherever we go

Bravely moving forward
The one in charge and I
Energy destroyed
But the body cannot die
Help you find your purpose
Until you're moving on
I know you'll be here
Long after I am gone

Make your peace
A reevaluation's what I need
Sow your seeds
A reevaluation's what I really need

And wherever I go
It's wherever you go
And wherever you go
(And wherever you go)
It's wherever we go
