

Spread

Tub Ring

A man cried out to universe
That he exists with a great agency
And the universe said that it's aware of this fact
But it is of no consequence to me

I travelled so long to get here
Just to witness how the story unfolds
But if life still endures then it must be a truth
That we're not like a cancer
No we're more like a mold

Spread
It's time to spread
We must spread
Spread

Take us to the place that you settled on
The notable
The one that is stood upon
What's it like to be a phenomenon
The undeterred
The one that we put upon

I travelled so long to get here
Just to witness how the story unfolds
But if life still endures then it must be a truth
That we're not like a cancer
No we're more like a mold

Once I decided to leave this place
I was bewildered it had taken so long
A brand new approach was always the plan
But my roots had all been growing too strong

I watched the origin play out
I saw the battles fought on multiple fronts
Just when I thought that the species had peaked
Change came slowly then it all came at once

Spread
It's time to spread
We must spread
Spread

I travelled so long to get here
Just to witness how the story unfolds
But if life still endures then it must be a truth
That we're not like a cancer
No we're more like a mold

Take us to the place that you settled on
The notable
The one that is stood upon
What's it like to be a phenomenon
The undeterred
The one that we put upon

Take us to the place that you settled on
The notable
The one that is stood upon
What's it like to be a phenomenon
The undeterred
The one that we put upon

Spread
It's time to spread
We must spread
