

## Stop This (NOW!)

Tub Ring

My God, what's that behind me?  
Another voice, a new identity  
My God, I'm just a block away  
The sounds aren't real  
So I know they can't harm me

Doesn't help shake this fear I'm not alone  
We make it work, yeah  
We make it work, now  
And I've got to stop this now

You said, "Why don't you find me?"  
Truth is, you're still behind me  
You said, "You're getting closer now  
Sacrifice 'real' and the morals that you still allow"

Doesn't help shake this fear I'm not alone  
We make it work, yeah  
We make it work, now  
And I've got to stop this now  
We make it work, yeah  
We make it work, now  
We make it work, yeah  
We make it work, now  
And I've got to stop this now  
We make it work, yeah  
We make it work, now

My God, what's that behind me?  
Another voice, a new identity  
My God, I'm just a block away  
The sounds aren't real  
And I know they can't harm me now

Doesn't help shake this fear I'm not alone  
We make it work, yeah  
We make it work, now  
And I've got to stop this now  
We make it work, yeah  
We make it work, now  
We make it work, yeah  
We make it work, now  
And I've got to stop this now  
We make it work, yeah  
We make it work, now
