

# Time For Me

Tub Ring

We stopped at good enough  
But the data kept on flowing on  
We thought they'd given up  
But the data kept on flowing on

If you build your pyramids  
Well, the outcome could be grand  
Change the face of generations  
Shape the outcome of this land  
I tell you, I'd love to sit down  
With all the people that I see  
But I don't have time to take up  
Because they don't have time for me

(Time for me)  
(Don't have time for me)  
(Time for me)  
(Don't have time for me)

There's not a thing  
That I lack  
So goddamn, it's good to be back  
Onward  
And I'm taking my time  
Onward  
And I'm taking my time

There's not a thing  
That I lack  
So goddamn, it's good to be back  
Onward  
And I'm taking my time  
Onward  
And I'm taking my time

We stopped at good enough  
But the data kept on flowing on  
(And on, and on, and on...)  
We thought they'd given up  
But the data kept on flowing on  
(And on, and on, and on...)

If you build your pyramids  
Well, the outcome could be grand  
Change the face of generations  
Shape the outcome of this land  
And I tell ya, I'm not alone  
With all the people that I see  
But I don't have time to take up  
Because they don't have time for me
