

Brother

Tucker Beathard

Billy Badass on school playgrounds
Callin' me names and pushin' me around
And his jaw got jacked
I still owe you for that
Momma 'bout cried and daddy saw red
When he found them cigarettes under your bed
But I said they were mine
Because you had a date that night

Brother let me hold your trouble
When it gets too heavy
Let me fly when you're high
Let me sink like a stone
When you're low
Brother let me say
A little prayer for you
Take a sucker punch for you
I'd do anything for you
Yeah you ain't alone
Yeah I'll take on the world with you

We got the same temper with the same short fuse
Same last name, same Bible tattoo
That I talked you into
Oh man I swear they're still cool
We both tried to act tough when you loaded your truck
To chase that dream that broke the band up
I said some things
That you know I didn't mean

Brother let me hold your trouble
When it gets too heavy
Let me fly when you're high
Let me sink like a stone
When you're low
Brother let me say
A little prayer for you
Take a sucker punch for you
I'd do anything for you
Yeah you ain't alone
Yeah I'll take on the world with you
Yeah I'll take on the world with you

Well we ain't got [?]
We got enough proof
From the heavenly highs
And the hell we've been through

But brother let me hold your trouble
When it gets too heavy
Let me fly when you're high
Let me sink like a stone
When you're low
Brother let me say
A little prayer for you
Take a sucker punch for you
I'd do anything for you

Yeah you ain't alone
Yeah I'll take on the world with you
Yeah I'll take on the world with you
Yeah I'll take on the world with you
