

How Gone Will I Go

Tucker Beathard

I'm gonna get outta here
Outta here one of these days
No more talkin' about
Talkin' about breakin' these chains

I'm gonna pack it up and run like hell
Nothin' more than me, myself and I
Make hard enough, not at all
Take a chance and leave it all behind

Just because I can don't mean I will
The right feels wrong but wrong's all that I feel
Dear someone, can you tell me what I don't know

How gone will I go
How gone will I go

Might be a ghost town tumbleweed
Runnin' out right off main
Could be a halfway brokedown
Boomerang that don't come back

For now I'm lightin' up the chain
Hopin' cigarettes and rain mix good
Waitin' for my mind to find a place
A compass never could

If I leave now I might be gone a while
I'll be back sure goes good with denial
It's so easy to say so tell me why I ain't so

How gone will I go
How gone will I go
How gone will I go

Tell me I ain't that gone
Tell me I ain't that gone
Tell me I ain't that gone
Tell me I ain't that gone

How gone will I go
How gone will I go
How gone will I go
How gone will I go
