

Open Flame

Tucker Beathard

It's been a while, how you been?
I'm guessin' you ain't with him
Look good, lookin' like you're holdin' up just fine

Same ole same, ain't nothin' new
Can't give up givin' into you
Ain't the first time, still I ain't learned
Play with fire, you wind up burned

You fall apart, and I fall to pieces
Take my hand, we dance out in the deep end
Can't stop it, baby, once it starts
Get a little too close, go a little too far
You're too right to run, too wrong to leave it
You're what I want, but I know I don't need it
That's how it is, it's just who we are
Open flame, paper heart...

No sayin' no, no turnin' 'round
Got to let it burn 'til it burns out
Like a high from a drug, like a fall from sin
Every time we touch, every time we kiss

You fall apart, and I fall to pieces
Take my hand, we dance out in the deep end
Can't stop it baby, once it starts
Get a little too close, go a little too far
You're too right to run, too wrong to leave it
You're what I want, but I know I don't need it
That's how it is, it's just who we are
Open flame, paper heart...

You fall apart... I fall to pieces
Take my hand, go dance in the deep end...

You fall apart, and I fall to pieces
Take my hand, we dance out in the deep end
Can't stop it, baby, once it starts
Get a little too close, go a little too far
You're too right to run, too wrong to leave it
You're all I want, but I know I don't need it
But that's how it is, just who we are
Open flame paper heart

Open flame, paper heart...
