

Over

Tucker Beathard

Moonbeams and shadows
Been shooting like arrows
And knockin' on tomorrows
Front door

The sun hot on our heels
The mist on the windshield
Is erasing your name more
And more

Lets put the morning on a shelf
And tell the clock to go to hell
And stay on this lost carousel

We don't have to give in
And say goodnight
Lets let our hearts run wild
And stay where we've been
And hide from the end

This night ain't over
Its just one kiss closer
To starting this over
Over and over again

The stars won't be talkin'
The moon man ain't watching
How close that we do
Or don't get

So hold on and let go
We can blindfold the window
If that blue sky tries to look in

We don't have to give in
And say goodnight
Lets let our hearts run wild
And stay where we've been
And hide from the end

This night ain't over
Its just one kiss closer
To starting this over
Over and over again

...
