

When I'm Gone

Tucker Beathard

When I said "I'm in" I meant I'm in
Through the good, through the bad, through the thick and thin
All the highs, all the lows, anything life throws our way
When I said "it hurts" I mean it hurts
To see you feel so insecure
And to watch you build up a wall, just to shut me out
And when I said "I'm trying" I meant like hell
To save you and me from yourself

Girl don't go jumping the gun on this
You should know by now that you're dealing with
A guy who'd break his own damn heart for you...
If you told him to
No I ain't trying to change your mind
I'll walk away, I'll say goodbye
But baby you better be sure this is what you want
'Cuz when I'm here, I'm here
But when I'm gone, I'm gone

If you tell me to "go" I'll go all in
Start a brand new life, find brand new friends
I can turn into somebody that you ain't met
But if you tell me to stay, I'll stay right here
Give it all that I've got, won't go nowhere
You can keep my heart, I can fight your fears
Till there ain't none left

Girl don't go jumping the gun on this
You should know by now that you're dealing with
A guy who'd break his own damn heart for you...
If you told him to
No I ain't trying to change your mind
I'll walk away, I'll say goodbye
But baby you better be sure this is what you want
'Cuz when I'm here, I'm here
But when I'm gone, I'm gone

But when I'm gone, I'm gone

When I said "I'm trying" I meant like hell
To save you and me from yourself

Girl don't go jumping the gun on this
You should know by now that you're dealing with
A guy who'd break his own damn heart for you...
If you told him to
No I ain't trying to change your mind
I'll walk away, I'll say goodbye
But baby you better be sure this is what you want
'Cuz when I'm here, I'm here
But when I'm gone, I'm gone

But when I'm gone, I'm gone
