

## Harbor Valley

Tuff

Harbor Valley was your home  
Every holiday we'd go  
To the river in your boat  
You would kid and you would joke  
After supper we'd play games  
You'd sing songs with funny names  
Time has come and gone and went  
And now I know how much you meant

Pre chorus #1 / Chorus:  
I think of all you did for me  
I wish so much that we could be  
Inside this song and take us back  
Right now ,back to Harbor Valley  
Remember Harbor Valley

Harbor Valley was your home  
Now the river flows alone  
Scattered leaves on uncut lawn  
The boat and songs are all long gone  
Now I'm the one who plays the games  
And I sing songs, just the same  
You grew old and I grew up  
I could never ever thank you enough

Pre chorus #2 / Chorus:  
I think of all you did for me  
I wish so much that you could hear me  
Sing this song, from me to you  
Right now, Back to Harbor Valley  
Remember Harbor Valley, Harbor Valley
