

I Won't Give Up

Tuff

If at first you don't succeed then we are taught to try again
Words of wisdom someone said
It really cramps my style when I kill myself, and nothings' in
return
Guess its time to clear my head

Now and then, I like to kid around
But it's in my blood, to buckle down, yeah

I won't give up again
Never doubt me
'Cause when I'm down
I get back up again, yeah
And pick up the pieces
Don't bet against me
You'll be sorry
I won't give up again

Everyday is just a fight to keep from tearing off my head
So many things on my mind
So every night I say a prayer as I lay all alone in bed
Make me strong one more time

Now and then, I like to kid around
But it's in my blood, to buckle down, yeah

I'm moving forward every day
Always something in the way
Nothing left for me to say
