

## In Dogs We Trust

Tuff

They take moms money and they take my name  
Detention's calling I'm to blame  
I sit and stand for 12 long years  
It's not so fun to learn and fear  
Herded through that schoolyard  
There's 13 stripes and 50 stars  
I put my hand on my heart In dogs we trust

Boss mans screaming over time today  
I won't say yes and I can't say no way  
The electric clock won't let me go  
And it's every day I feel this low  
Chained to my wooden desk  
Who is he to say what's best  
I throw my hands in disgust In dogs we trust  
I put my hand on my heart In dogs we trust  
Gotta kneel to pray I.D.W.T. Nothing left to say

They tell me who and what I'll be  
I think I know what's best for me  
And you ain't right to lead  
In dogs we trust No one rides for free  
In dogs we trust I said you ain't right to lead  
In dogs we trust Do I need to scream
