

Like A Kid Again

Tuff

I've grown up a bit, I'm getting older
Feel the weight, like an anvil on my shoulder
I cleanse my mind of so called modern fashion
Stick to your roots, always keep the passion

Pre: #1

I need a fresh set of heroes
I want a change in routine, yeah-yeah-yeah-yeah

Chorus:

My life has just begun
I'm looking for a little fun
No one will keep me from
Living like a kid again
My mind and soul are one
There's things I have not done
I'm feeling oh so young
Gonna live like a kid again

I'm feeling stronger, weaker people fall
Age is just a number, placed upon us all
Life is like a battle, time the only scar
A generation gone, so near but not to far

Pre: #2

I need to look to the future
I will ignore father time
