

The All New Generation

Tuff

Time ain't in a bottle and nothing stays the same
Somewhere in the 50s music made a change
People started pointing when the king began to shake
They called it rock n' roll and it was love or hate
Elvis Presley, Richie, Jerry, Little Richard, Buddy,
Barry
You know The Beatles had a hard day's night

The all new generation (We're one big rocking)
Rock n. Roll is communication (Ain't no violation)
Boys will be boys. Girls, girls, girls (Scream and
shout let it all out)
Singing out loud (All around the world)

Hippies turned to punkers and rockers turned to glam
Everyone's a poser now unless you like to slam
Violence ain't your answer nor drugs I'm proud to say
We gotta stick together now cause music's hear to stay
The Who, The Doors, Pink Floyd, Led Zeppelin, Rolling
Stones,
And old Van Halen. Aerosmith told you, Walk this way

Elvis Presley, blah blah blah
Cooper, Kiss, The Oz and Motley, Poison, Axl, Jon Bon
Jovi
Skid Row is the youth gone wild
