Tujamo

I lot of people be jacking my style
They want me gone but I'll be there for a while
I ain't no local now we global now
People know my name now I feel that I'm important
[?] man I got my own endorsement
She just wanna party in a 'rari, she like horses
She just left her main man 'cause he's kinda boring
She just left her main man to party with-

Don't stop, make it drop
Make it all fall down
Don't stop, make it drop
Make it all fall down
Don't stop, make it drop
Make it all fall down
Don't stop, make it drop
Make it all fall down
Down, down, down, down
Down, down, down

Make it all fall down
Make it all fall down

Make it all fall down
Make it all fall down
Don't put your guard up
Make it all fall down

Make it all fall down
Make it all fall down
Don't put your guard up
Make it all fall down
Make it all fall down

Don't stop, make it drop
Make it all fall down
Don't stop, make it drop
Make it all fall down
Don't stop, make it drop
Make it all fall down
Don't stop, make it drop
Make it all fall down
Down, down, down, down
Down, down, down

Make it all fall down
