

# Heaven Is A Place

Tujamo

Heaven is a place, and I can take you there  
When the sun goes down, I know you're hitting me up  
Can you help me out?  
Yeah. I need that Midas touch

Been drinking Hennessy  
Waiting patiently  
Thinking 'bout the things you will do to me now  
I think I'll lose my mind like

I just need a little bit  
Take a sip  
Fingertips  
Heaven is a place, and you can take me there  
Way you make my body drop  
Oh, my God! Don't you stop  
Heaven is a place, and I can take you there

I think I'll lose my mind like  
Heaven is a place, and I can take you there

We're on the ceiling and all the way to the floor  
You got me wrapped around  
You throw stacks around  
You're like, "Oh"

'Cause when the sun goes down, I know you're hitting me up  
Don't wanna waste no time  
Give me that holy touch

I just need a little bit  
Take a sip  
Fingertips  
Heaven is a place, and you can take me there  
Way you make my body drop  
Oh, my God! Don't you stop  
Heaven is a place, and I can take you there

I think I'll lose my mind like  
Heaven is a place, and I can take you there

Been drinking Hennessy  
Waiting patiently  
Thinking 'bout the things you will do to me now  
I think I'll lose my mind

I just need a little bit  
Take a sip  
Fingertips  
Heaven is a place, and you can take me there  
Way you make my body drop  
Oh, my God! Don't you stop  
Heaven is a place, and I can take you there

I think I'll lose my mind like  
Heaven is a place, and I can take you there
