

# Lose Control

Tujamo

Trust me when I'm saying we should let go  
You know what I need, you and need me to get low  
You gotta trust me when I'm saying we should let go  
You know what I mean when I say I wish you lose control, lose control

Lose control, lose control, lose control, lose control  
Lose control, lose control, lose control, lose control  
Lose control, lose control, lose control, lose control  
You know what I mean when I say I wish you lose control, lose control

Lose control, lose control  
Lose control, lose control

Trust me when I'm saying we should let go  
You know what I need, you and need me to get low

Trust me when I'm saying we should let go  
You know what I need, you and need me to get low  
You gotta trust me when I'm saying we should let go  
You know what I mean when I say I wish you lose control, lose control

Trust me when I'm saying we should let go  
You know what I need, you and need me to get low  
You gotta trust me when I'm saying we should let go  
You know what I mean when I say I wish you lose control, lose control

Lose control, lose control, lose control, lose control  
Lose control, lose control, lose control, lose control  
Lose control, lose control, lose control, lose control  
You know what I mean when I say I wish you lose control, lose control

Lose control, lose control  
Lose control, lose control
