

Sometimes

Tujamo

You know I think about you sometimes
If we meet again
Will it feel like the first night?
I think about you sometimes
Would it be the same
If we never said goodbye?
I think about you sometimes
If we meet again
Will it feel like the first night?
I think about you sometimes
Would it be the same
If we never said goodbye?
I think about you sometimes

Would you stay
Would you go
Would you try
If I took back my lies
If I took back my lies
Would it change
If I told you tonight
You're still on my mind
You're still on my mind

Caught up in emotions
I just can't forget
All the things that we've been through
I wonder when you hold 'em
Am I in your head
Doesn't matter what I do

You know I think about you sometimes
If we meet again
Will it feel like the first night?
I think about you sometimes
Would it be the same
If we never said goodbye?
I think about you sometimes
If we meet again
Will it feel like the first night?
I think about you sometimes
Would it be the same
If we never said goodbye?
I think about you sometimes

Would you stay
Would you go
Would you try
If I took back my lies
If I took back my lies
Would it change
If I told you tonight
You're still on my mind
You're still on my mind

Caught up in emotions
I just can't forget

All the things that we've been through
I wonder when you hold 'em
Am I in your head
Doesn't matter what I do

You know I think about you sometimes
If we meet again
Will it feel like the first night?
I think about you sometimes
Would it be the same
If we never said goodbye?
I think about you sometimes
If we meet again
Will it feel like the first night?
I think about you sometimes
Would it be the same
If we never said goodbye?
