I think she likes it when it rains
Step out in Gucci, I get paid
I think I need a double lane
I gotta watch for every day
If you do it right, we can go all night
Then I'm gonna tell you you're the best thing in my life
If you do it right, we can go all night
Then I'm gonna tell you you're the best thing in my life
Take control
Up in my head, all up in my head, yeah
Just say it again, whatever you say, yeah
Running, freaking me out, don't wanna turn back, nah
I wanna look down, wanna see you smile, now
If you do it right, we can go all night
Then I'm gonna tell you you're the best thing in my life
If you do it right, we can go all night
Then I'm gonna tell you you're the best thing in my life
Take control
If you do it right, we can go all night
Then I'm gonna tell you you're the best thing in my life
If you do it right, we can go all night
Then I'm gonna tell you you're the best thing in my life
Take control
