

# Foreigner

Tulisa

Foreigner, what you come around here for?  
Foreigner, don't come knocking on my door  
You don't come around here blocking all the sun  
Don't bring your winter here, we don't need one

Foreigner, I know you wanna make me cry  
Foreigner, who ya foolin'? You ain't sure  
I'm sure I can't imagine what you thinking of  
When I land on my heart and destroy my love

Bad guy, bad guy, you're so addicting  
Bad guy, bad guy, I'm so conflicting  
Bad guys, I can't to tell them though  
My heart says leave but my body never close

Rocking big, we just rocking big  
Rocking me, you just rocking me  
Love how you take what you want and what you need  
Rocking me, you just rocking me

Come my my but tell the big arraign  
Coming home tonight  
I'm wrapped up in this guerilla outfit  
And there's no need to fight, foreigner!

Foreigner, why you gotta be so rough?  
Foreigner, why you gotta act so tough?  
Bust that mitt that got my hostage jugular  
It's no negotiation, no, you won't keep me up

Foreigner, your demands are crazy  
Foreigner, no one is gonna save me  
Dropping your bombs on me, what's the reason?  
Come break my heart baby, charge me for treason

Bad guy, bad guy, you're so addicting  
Bad guy, bad guy, I'm so conflicting  
Bad guys, I can't to tell them though  
My heart says leave but my body never close

Rocking me, you keep rocking me  
You keep rocking me, you keep rocking me  
Love how you take what you want and what you need  
You keep rocking me, you keep rocking me

Come my my but tell the big arraign  
Coming home tonight  
I'm wrapped up in this guerilla outfit  
And there's no need to fight, foreigner!

Oh baby, I can't get away  
I am your slave  
Forever

But baby, I can't get away  
I am your slave  
Forever

Sleeping with the enemy  
Sleeping with the enemy  
Sleeping with the enemy  
I'm sleeping with the enemy

You know what? I love it  
Yea, I love it (I love it)  
Yea, I love it (I love it)  
Yea, I love it (I love it)  
Yea, I love it (I love it)  
Yea, I love it (I love it)  
Yea, I love it (I love it)  
Yea, I love it (I love it)

I say I'm sleeping with the enemy  
I'm sleeping with the enemy  
I'm sleeping with the enemy  
I'm sleeping with the enemy

I love it (I love it)  
I love it (I love it)  
I need it (I need it)  
Every day (every day)

I love it (I love it)  
I love it (I love it)  
And I don't care what you people think  
I'll say yea yea yea ye eh eh eh eh yea yea eh eh eh

(And I don't give a fuck yo)
