The trees are in the meadow
The cows are in the trees
The people aren't anywhere to be found
Better take one of these

The trees are in the meadow
The cows are in the pigs
The people aren't anywhere to be found
The gravedigger digs

Look into my eyes, I know you honey
Look into my eyes, I see you honey
Look into my eyes, I know it honey
Look into my eyes, quiet, quiet
Look into my eyes, oh I know you honey
Look into my eyes, oh I feel it honey
Look into my eyes, oh you're hypnotized
Hypnotized, hypnotized

Silent as a citizen
City streets of ghosts and past
They used to laugh and dance here
Until a spell was cast

Look into my eyes, I know you honey
Look into my eyes, I see you honey
Look into my eyes, I know it honey
Look into my eyes, quiet, quiet
Look into my eyes, oh I know you honey
Look into my eyes, oh I feel it honey
Look into my eyes, oh you're hypnotized
Hypnotized, hypnotized

You've got it again
You've got it again
You've got it again
You've got it again
You've got it again
You've got it again (don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)
You've got it again (honey, don't)

That mirror draws down your head
You think the image is real
Your tears are melting your face
But you forgot how to feel
Remember your lungs, remember your lungs
Remember your lungs, remember your lungs
The weight of your bones, remember your lungs

Wake up and look into my eyes

Look into my eyes, I know you honey
Look into my eyes, I see you honey
Look into my eyes, I know it honey
Look into my eyes, quiet, quiet
Look into my eyes, oh I know you honey
Look into my eyes, oh I feel it honey
Look into my eyes, oh you're hypnotized
Hypnotized

Look into my eyes, I know you honey
Look into my eyes, I see you honey
Look into my eyes, I know it honey
Look into my eyes, quiet, quiet
Look into my eyes, oh I know you honey
Look into my eyes, oh I feel it honey
Look into my eyes, oh you're hypnotized
Hypnotized
