Many days and nights I had to tussle with the grown monks  
Appetite expensive you only eat more me and my habit went  
Blow for blow toe to toe had to pull a Keyshia Cole let it go try  
To kick it but it end up kicking me hoping it leave in a bathroom  
Cuffing my sleeves my mornings praying that shit hoping for  
Change when thermus in summer trying to hide my things  
Me my tracks before a show I'm doing a pack trying to go but  
That hoe keep calling me back that James Brown got me feelin  
Like an Austranorth loaded a 27 like a traveling car they planting  
The pot came through raided my spot victims you shot probation  
Back on my block no longer struggling that habit I put it behind  
J Price believed in me so I knew I had to shine

How could you forget about a nigga you grew up with since

Do you might make woman stay hundred and got me through  
How could I now been on a vacation and been through a lot of
