

Number On The Gate

Turnover

Who are you?
Why do you want to come through now?
Did you see an opportunity?
Who are you?
Why do you want to be my friend?
Is there something I've got that you need?

Push me all the way down
Push me all the way down

Only think of leaving
You can see my feet are stuck
Oh I came from fearing
And I left my feelings there

Only think of leaving
You can see my feet are stuck
Oh I came from fearing
And I left my feelings there

What brought you?
Have you been through the things I have?
Did you lose your trust or feel betrayed?
I want to
Take your word for it just like that
Second guessing everything you say

Only think of leaving
You can see my feet are stuck
Oh I came from fearing
And I left my feelings there

Only think of leaving
You can see my feet are stuck
Oh I came from fearing
And I left my feelings there

Push me all the way down
Make me want to get far away
Live up in a big house
Number on the gate
Trouble lurking outside

Push me all the way down
Make me want to get far away
Live up in a big house
Number on the gate
Trouble lurking outside

Push me all the way down
Make me want to get far away
Live up in a big house
Number on the gate
Trouble lurking outside

Only think of leaving
You can see my feet are stuck

Oh I came from fearing
And I left my feelings there

Only think of leaving
You can see my feet are stuck
Oh I came from fearing
And I left my feelings there
