

Parties

Turnover

We went on time
I tried to look excited
Paralyzed
Nervous just to go

Barely changed
My outfit from the last one
I could just
Be the first to leave

Because I'm
Really not that good
At making conversation
Even when
Everyone who's here with me
Is celebrating

Because I'm
Really not that good
At making conversation
Even when
Everyone who's here with me
Is celebrating

We went on time
To all those stupid parties
I should try
To feel the energy

Because I'm
Really not that good
At making conversation
Even when
Everyone who's here with me
Is celebrating

Because I'm
Really not that good
At making conversation
Even when
Everyone who's here with me
Is celebrating

It's warm enough
For us to walk home
The time of night
Where it can move slow
The dancing all stopped
The lines are all gone
My battery's dead
Your place isn't far

You walk so fast
I know what you do
You're showing off
My eyes are on you
Your body moves just

The way that it should
I'm glad that we came
You make me feel good
