

# Sending Me Right Back

Turnover

Stained glass  
Your eyes  
Windows through time  
Memories draped in painted light  
Like when we're young and go  
Dive into fallen leaves  
And laugh about  
Scrapes on our hands and knees  
Before we learned to hurt  
Or what the pain was worth

Sending me right back to it  
Rejuvenator

I think I've done enough  
But I keep working for it  
The feeling building up  
Until I can't ignore it  
You ever wanted something for so long  
Then waste it all?

Old flame gone down  
Young pride  
Self doubt  
Fantasies that you shape around  
Like when you heard a song  
That took you somewhere new  
The feeling there's  
Nothing you wouldn't do  
To realize the dream  
In love with how it seemed

I think I've done enough  
But I keep working for it  
The feeling building up  
Until I can't ignore it  
You ever wanted something for so long  
Then waste it all?

I think I've done enough  
But I keep working for it  
The feeling building up  
Until I can't ignore it  
You ever wanted something for so long  
Then waste it all?

Rejuvenator for when  
You forget how  
You really used to enjoy to play  
Rejuvenator for when  
Your intentions  
Aren't as sure as they were when you begun

Rejuvenator for when  
You forget how  
You really used to enjoy to play  
Rejuvenator for when

Your intentions  
Aren't as sure as they were when you begun
