

## The Hard Way

### Turnpike Troubadours

Well I just hit town  
You know the old routine  
Try to tear it down  
Like you've never seen  
It's a brand new year  
Feels like '27 warmed over  
'27 warmed over

On the road again, off of Highway 10  
In a cabin on a rural route  
I'm gonna figure out the hard way  
How fast I can wear my welcome out

Lord I miss this place  
Could have stayed  
Instead tried to keep the pace  
Out at Diamond Head  
I was almost there  
Silver medal for the loser  
Silver medal for the loser

On the road again, off of Highway 10  
In a cabin on a rural route  
I'm gonna figure out the hard way  
How fast I can wear my welcome out

I'm gonna figure out the hard way  
I'm gonna figure out the hard way

Now I'm headed out  
With the same unrest  
Tried to tear it down  
But it was unimpressed  
Used to feel like home  
It was rolling in the clover now  
'27 warmed over now  
It's '27 warmed over

On the road again, off of Highway 10  
In a cabin on a rural route  
I'm gonna figure out the hard way  
How fast I can wear my welcome out  
I'm gonna figure out the hard way  
How fast I can wear my welcome out
