

Big Smile

Turnstile

I don't need your big smile
Your green light
Your damn time
I got no room for you inside my mind
Inside my mind
And when I look you in the eye
Don't need your big smile
Your green light
Your damn time
I got no room for you inside my mind
Inside my mind
Inside my mind

Some things just last too long
Now I can finally breathe out and move along

Don't need your smile
