

## Bring It Back

Turnstile

Redirect  
Take yourself out  
Carry on  
Separate and move along

Back then I gave you time  
But I was blind as you walked on my mind, yeah  
But that's when you live  
When you control the negative

Stay away  
Bring it back the other way

Redirect  
Take yourself out  
Carry on  
Separate and move along

Just a memory of bad times when I was blind  
And you walked on my mind, yeah  
But that's when you live  
You control the negative

Stay away

But that's when you live  
Burying the negative  
Out of mind, out of sight  
That's when you get your head right  
Stay away  
Bring it back the other way
