

Don't Play

Turnstile

You got me paralyzed, you got me stunned
Words like bombs, I'm going numb
Giving more than I can take
But don't you take my thrill away

Don't play

Disconnect from everything I think I know
Release my mind, my garden grows
Found a place where I can stay
Now don't you take my thrill away

Don't play

Don't play

No I'm not the one to set you free

Don't weigh me down

Don't play

Don't play me out

Don't weigh me down

Don't play

Don't play me out
