

# Heavy Hand

## Turnstile

Pain, the only way  
And you will feel it in your head like you never did  
I hope you feel it in your heart and you fall apart  
I'm coming down  
Swinging my, swinging my, swinging my  
Heavy hand

Oh I'm coming down

I know there's peace deep inside of me  
But people push me around everyday

Let me be alright now  
Let me be alright now

They'll never change

Pain, the only way  
And you will feel it in your head like you never did  
I hope you feel it in your heart and you fall apart  
I'm coming down  
Swinging my, swinging my, swinging my  
Heavy hand  
Heavy hand  
Heavy hand
