

I CARE

Turnstile

I'm happy to give myself away
I'm happy to fix what I can't change

All because you know I care
All because you know I'm there

I'm happy to sink into regret
If only to lose myself in it

All because you know I care
All because you know I'm there

But do you really wanna fall apart?
And do you really wanna break my heart in two?
Two

I'm happy to give myself away
I'm happy to fix what I can't change

All because you know I care
All because you know I'm there

But do you really wanna fall apart?
And do you really wanna break my heart?
'Cause if you're living in a fantasy
I guess you'll never know you're leaving me in two
