

# MAGIC MAN

Turnstile

Following the signs so you make it in time for the show  
Wandering the world, but the world's got a plan of its own  
Never be afraid, just remember what he said when you go  
Always in the wind while you're slipping through the hands that  
you hold

Oh, magic man  
Magic man

Suddenly, a spark in the night when you're tired of the load  
Loved you from the start when a place in your heart was a hole  
Never be afraid, just remember what he said when you go  
Always in the wind while you're slipping through the hands that  
you hold

Oh, magic man  
Magic man  
Magic man  
Magic man
