

SLOWDIVE

Turnstile

Slowdive, sink into the feeling
Hold tight, you're drowning in the days
Wanna swim right but the peace and quiet is comforting
On my way down, did you hear me when I called?

Slowdive, memories are fleeting
Both eyes, see you in a haze
Wanna swim right but the peace and quiet is comforting
On my way down but I feel no weight at all

I can't give you what you need
You know it's hard enough to breathe

Slowdive, sink into the feeling
Hold tight, you're drowning in the days
Wanna swim right but the peace and quiet is comforting
On my way down but I feel no weight at all

I can't give you what you need
You know it's hard enough to breathe
I know I'm what you're looking for
But you don't see me anymore

And it's a heartbreak
Heartbreak
And it's a heartbreak
Heartbreak
And it's a heartbreak
Heartbreak
And it's a heartbreak
Heartbreak
