

## Time + Space

### Turnstile

I know we're gonna fall  
When we're walking right into a wall  
So now we got to separate  
If we ever want to find real change

We need time  
Space

Love is hard to find  
And all my dreams got me outta my mind  
But now I got to separate  
For real goddamn change

I need time  
Space  
Space
