

# Cake

Tuxedo

You can have your piece of cake  
Get into the groove and celebrate  
(Have it your way)  
There's enough to go around  
We can live it up and get on down  
(Have it your way)  
Ayyy

Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby

Keep on moving up and reaching higher  
Never let nobody dim your light  
Use the jealousy to fuel your fire  
Keep that finish line within your sight  
(Right)

There'll be ups and downs  
And merry-go-rounds  
And no doubt we'll be back again  
Trying to get to that bread  
Will get all in your head but  
You've got to keep on stepping

You can have your piece of cake  
Get into the groove and celebrate  
(Have it your way)  
There's enough to go around  
We can live it up and get on down  
(Have it your way)  
Ayyy

Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby

Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby

Cut  
That cake gotta break me off some  
Skim a little icing off the top  
Mash on the gas to the cash is the only option  
Turn the volume up and let it rock  
(Don't stop)

There'll be ups and downs  
And merry-go-rounds  
And no doubt we'll be back again  
Trying to get to that bread  
Will get all in your head but  
You've got to keep on stepping

It's all out here for you baby  
You just gotta reach out and grab it  
Have it your muthafuckin' way

You can have your piece of cake  
Get into the groove and celebrate  
(Have it your way)  
There's enough to go around  
We can live it up and get on down  
(Have it your way)

Ayyy

Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby

Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby  
Yeah you can have it baby
