

## Extra Texture

Tuxedo

Come and take a ride in my world  
I'll give you more than diamonds and pearls  
I got a little extra texture  
For you girl  
Ooh I see you shining so bright  
And it's the perfect timing tonight  
I got a little extra texture  
That's right

Too long  
I've been waiting for a woman like you  
To walk in the door  
And leave my jaw on the floor  
I know you're sick of promises galore  
Words that I'm certain you've heard all before  
But baby I've got something more

Come and take a ride in my world  
I'll give you more than diamonds and pearls  
I got a little extra texture  
For you girl  
Ooh I see you shining so bright  
And it's the perfect timing tonight  
I got a little extra texture  
That's right

There's something about this one that's got me kind of sprung  
I really like the way we groove  
It's always so much fun  
She never tries to level me down  
And she never wears a frown  
I think this one's a keeper y'all  
And I hope our love never falls down

Come and take a ride in my world  
I'll give you more than diamonds and pearls  
I got a little extra texture  
For you girl  
Ooh I see you shining so bright  
And it's the perfect timing tonight  
I got a little extra texture  
That's right
