

Good Time 4 Ever

Tuxedo

We'll have a good time forever
High highs and low lows too
Just say that you'll leave me never
I'll spend my life with you
Spend my life with you, baby

With you, with you, with you
We'll have a good time
With you, with you, with you
We'll have a good time

Baby, you and me, we look so good together
We can take it step by step in harmony
Keep on dancing to a different groove forever
Take a trip aboard the Fantaship with me

We'll have a good time forever
High highs and low lows too
Just say that you'll leave me never
I'll spend my life with you
Spend my life with you, baby

With you, with you, with you
We'll have a good time
With you, with you, with you
We'll have a good time

Put that Henny and that ginger ale together
Mix it up and we can let our minds be free
Keep on dancing to a different groove forever
Take a trip aboard the Fantaship with me

We'll have a good time forever
High highs and low lows too
Just say that you'll leave me never
I'll spend my life with you
Spend my life with you, baby

With you, with you, with you
We'll have a good time
With you, with you, with you
We'll have a good time
