

## Shine

Tuxedo

Ooh My love is like a star  
No matter where you are  
My light will guide you through  
Ooh My love is like the sun  
No matter where you run  
My light will shine on you

Shine  
My light will shine on you  
Shine  
My light will shine on you...

You know me very well  
It ain't too hard to tell  
We've got that magic formula so rare  
You keep me feeling strong  
You hold me all night long  
And when you need me  
Baby I'll there  
You turned my life around  
I'm hanging from a cloud  
I'll take you on this magic carpet ride  
And when we're dancing slow  
Baby from head to toe  
I get that feeling  
A feeling deep inside

Ooh My love is like a star  
No matter where you are  
My light will guide you through  
Ooh My love is like the sun  
No matter where you run  
My light will shine on you

Shine  
My light will shine on you  
Shine  
My light will shine on you...

That night that we first met  
Boy how could I forget?  
You had that diamond sparkle in your eye  
We hit that dancing floor  
Two stepping back and forth  
Smooth sailing on a supernatural high  
Now that you're in my arms  
Nothing can do me harm  
They couldn't separate us if they tried  
And if I lose my way  
I'll take your hand and say  
I'll be forever  
Forever by your side
