Tuxedo

Show me the way  
Show me the way  
Show me the way  
You like it

Show me the way  
Show me the way  
Show me the way  
You like it

I'm blinded by the way you move  
You got me tippin' my hat  
I'd like to do some things to you  
What you think about that?

But if you say that you agree, you've got to promise me  
You won't make me try to read your mind  
I can be your fantasy, if you trust in me  
But you've got to show me how to do you right

Show me the way  
Show me the way  
Show me the way  
You like it

Show me the way  
Show me the way  
Show me the way  
You like it  
Ooh you've got to show me...

I wonder if you notice me  
Caught you lookin' right back  
How bout a little Jodeci?  
I think I'm on the right track

But if you say that you agree, you've got to promise me  
You won't make me try to read your mind  
I can be your fantasy, if you trust in me  
But you've got to show me how to do you right

Show me the way  
Show me the way  
Show me the way  
You like it

Show me the way  
Show me the way  
Show me the way  
You like it

Ooh you've got to show me  
Ooh you've got to show me how  
You've got to show me ooh

Ooh you've got to show me  
Ooh you've got to show me how

You've got to show me ooh  
You've got to show me now
