Ooh baby you and me
On the same frequency

Ooh this must be a sign
I got to make you mine

Ooh it's a vibe

Vibrations

Sitting on the edge of the pool
Hanging with the rest of your crew
Flashing those big brown eyes at me
As I was walking by
Saw that your drink was dry
Seized a good opportunity

Oh yeah

Electric magnetism in the air
Caught me outta nowhere

Oh woah

I'm buzzin like guitars in rock n roll
You give me those good old

Vibrations

Ooh baby you and me
On the same frequency

Vibrations

Oh my god

Had to let down my guard
When you asked me about my zodiac sign
Now the ball's in my court
Bouncing it back and forth
Knocking down shots from the three-point line

Oh yeah

Electric magnetism in the air
Caught me outta nowhere

Oh woah

I must have met you a lifetime ago
You give me those good old

Vibrations
