

# Strange Loop

TV Girl

I wanna get to know ya  
I wanna know your mind  
I like to do it backwards  
You can't do it in just one night  
And everybody's out to get ya  
The way you looked was no surprise  
And if you want a girl to love ya  
Just gaze into her eyes and say

It's not hard to fall in love  
People do it all the time  
Romeo had Juliet  
And that worked out just fine  
Adam had an apple  
Eve had too much wine  
She put the apple on his head  
Pulled the trigger, then closed her eyes

Love is so simple  
First, it's great and then it hurts  
But it takes too long to realise  
That it's more trouble than it's worth  
If what she did to you  
Was done to her by someone first  
Then find someone you care about  
And make sure you do it worse
