

## Careful You

TV on the Radio

Oui je t'aime, oui je t'aime  
À demain, à la prochaine  
I know it's best to say goodbye  
But I can't seem to move away

Not to say, not to say  
That you shouldn't share the blame  
There is a softness to your touch  
There is a wonder to your ways

Don't know how I feel, what's the deal?  
Is it real? When's it gonna go down?  
Can we talk? Can we not?  
Well, I'm here, won't you tell me right now?  
And I'll care for you, oh, careful you  
Don't know, should we stay? Should we go?  
Should we back it up and turn it around?  
Take the good with the bad  
Still believe we can make it somehow  
I will care for you, oh, careful you, careful you

Oui je t'aime, oui je t'aime  
From the cradle to the grave  
You've done a number on my heart  
And things will never be the same

Freeze a frame, freeze a frame  
From a fever dream of days  
We learned the secret of a kiss  
And how it melts away all pain

(2x)

Don't know how I feel, what's the deal?  
Is it real? When's it gonna go down?  
Can we talk? Can we not?  
Well, I'm here, won't you tell me right now?  
And I'll care for you, oh, careful you  
Don't know, should we stay? Should we go?  
Should we back it up and turn it around?  
Take the good with the bad  
Still believe we can make it somehow  
I will care for you, oh, careful you, careful you
