

## Love Stained

TV on the Radio

Funny now it's all loud  
See what only nakedness could hide  
Something's got you tongue tied  
Like you're barely handling the ride  
Sentimental storm clouds  
Gathering, let's try to play them down  
They've been there the whole time  
Following from grip  
To call, to walk, to run, too slow

Live and die for it  
Simulate in blood baths  
In bed, all red, we're wed  
And unembarrassed to dare this affair with  
No brutalized romance or criticize slow dance  
Your head's your head  
But still we're not afraid to share this with careful awareness

In the middle of the night, when fear comes calling  
Singin' it all dies, awfully scared, alone  
I'm looking into your eyes to feel your call  
Pretty thing that catches me so strong when I fall

Another shining morning  
[?] got you by the lungs  
Wanna see some mourning  
But it seems a [?] never done  
Drop conflict to floor and  
Suddenly the whole thing weighs a ton  
Same body that you're dancing  
Bring you back to me, lick, and roll, and raise your inner sun

Live and die for it  
Swearing by black maths  
In bed, we're fed, we're wed  
And unembarrassed to share this affair with  
No brutalized romance or criticize slow dance  
My head's my head, but still we're not afraid  
To save for ourselves what a pair is

In the middle of the light, just wanna be your darling  
Running by your side, let me play along  
Look into your eyes, see the love we're born in  
Hear your heart so sweetly, just wanna sing its song

Everything's alright, just let me be your darling  
Running by your side, nevermore alone  
Look into your eyes and see the love we're born in  
Hear your heart so sweetly, just wanna sing its song
